

ONLY BELIEVE – 2
MAY 30, 2018

REVIEW:

- “Fear not, only believe” – Andrew’s Testimony.
- What we believe is important: To see the glory, to make prayer effective, to remove mountains, to work the works of God.
- Unbelief gives God fits. It made Him want to disown His people. Under Moses, they believed they were bugs facing giants. Entrance denied to the promised land.
NUM. 14:28-30
- Believing pleases God. Under Joshua, they believed God was their source. Entrance granted.
- The parallel: Egypt (world), wilderness (deprogrammed and reprogrammed), promised land (a place of victory now, not Heaven).

CONTINUE: MATTHEW 8:13

ANDREW MULLINS TESTIMONY – 2-25-2011 – IRELAND

At 17 months, diagnosed with stage 4 neuroblastoma cancer. He had cancer in every bone in his body except for his hands and feet. Also, a 7cm X 8cm X 21cm tumor. Mike, Andrew’s father, worked for a Christian charity. Many times, he preached about Heaven and hell and the need for salvation. Once, at the hospital café, another father asked how he could believe in a God who would allow this to happen to small children. Confused, he said “God has a plan, and purpose for everything. I don’t know what it is, but I trust Him.

VOICE OF RELIGION

- God needs another angel in Heaven.
- The Lord is in control.
- The Lord has a plan.
- Because of all your years in Christian ministry, God counted you worthy to have a child with cancer.
- You don’t die one day earlier than God has ordained. The outcome is set in stone.

“WHY PRAY, WHAT’S THE POINT?”

Andrew’s mom Aster knew over 4,000 people were following them on Facebook and praying. If it is set in stone, why pray? His father attended a prayer meeting and was asked how he wanted them to pray for Andrew. “As if it’s your own son!” They began to beg and plead with God. “Is that it, do I have to beg God to have mercy on my child? Do I have more compassion than God?” Would having 10,000 people praying make a difference?”

THE DISCOVERY

While in the hospital after giving birth to Grace, their sixth child, people started sending cards and gifts. Someone sent a CD “God wants you well” by Andrew Wommack. Both were exhausted and in survival mode. They put it on the shelf. He asked a pastor friend for help who said it’s ok to be in survival mode. “But I wanted to be in more than a conqueror mode. If healing is for today, I want to know how it works and where I’m missing it because his life depends on it. Driving to Dublin, they listened to the CD. “Could it be true?” She went from believing it was God’s will for him to die to it’s God’s will for him to be well. A message they never heard before. How could God’s will be for a two-year-old to die?

GOD’S WORD

She looked up scriptures about bones. **PROVERBS 15:30 (NKJV)** They learned “by whose stripes, we were healed” and “lay hands on the sick and they shall recover.” They did something they never did before. They laid hands on Andrew’s thigh and pelvis and said “bones we have good news for you, by His stripes you were healed.” He was retested, no cancer found in his bones.

THE TUMOR

Because of it’s location, the tumor couldn’t be removed completely. Aster asked God for another weapon. She came across **JUDGES 3:16-22 (NKJV)** – They laid hands on him again saying “cancer, neuroblastoma, I’ve got a message from God for you. By His stripes Andrew is healed.” She left the Word of God there, just as the dagger was left in Eglon’s belly. “At the end of the treatments, they will discover he is healed,” she said. All came to pass, just as they said. **MARK 9:23**

In September of 2017, Andrew was officially declared healed after being five years in remission. Andrew will be nine on September 26, 2018.
