

HEALING HELPS

MAY 15, 2024

Maybe you've been diagnosed with a condition that goes beyond medical science. The natural report is true, but there's another report that can provide help that goes beyond what medical science can provide. My message is to shed light on how we can tap into God's healing grace.

Jericho Denied

The natural report is similar to what happened at Jericho. By stating they were unable to enter the land, they exalted the natural report above God's report. God called doing this an evil report. This displeased God and resulted in everyone 20 and older dying in the wilderness without experiencing the promised land. The 10 spies died immediately by a plague (**NUM. 14:28**).

Jericho Entered

Those 19 and under were taught by Joshua and Caleb to exalt God's Word above the natural report and entered the promised land. The lesson: in order to experience God's divine intervention, we must learn to trust Him and exalt His report above man's. God said vs man said.
