

ASPECTS OF FAITH

FEBRUARY 11, 2026

INTRO:

HEB. 11:4 We can never over emphasize the importance of developing a strong faith life. If the Gospel benefits no one without mixing faith with it, then that means all that Jesus lived and died for won't benefit us unless we mix faith with it. The first exercise of faith was not about receiving something from God. It was about Abel giving worship to God through faith. There are different aspects to faith.

- **1 JOHN 5:4** Faith that overcomes the world. This is called triumphant or faith to live victorious lives while on earth.
- **ROM.1:16-17** Faith that enables us to experience change in our lives after salvation. This is transformational faith. By faith we are transformed from glory to glory.
- **1 PET. 1:7-9** Faith that gives us the right perspective in life. This is transcending faith. Our faith's goal goes beyond life on earth. One day our faith will usher us into God's presence.
HEB. 10:38-39, HEB. 11:13, 35-40.

Summary

- Triumphant faith involves a moment. David vs Goliath.
- Transformational faith involves a life. Saul to Paul.
- Transcending faith involves eternity. **2 COR. 4:16-18**

Conclusion

Our faith has different sides or aspects. All three aspects, triumphant, transformational, and transcending are needed to see us through our journey on earth.
