

AMERICA'S 250 YEARS

JUNE 28, 2026

- 1. PS. 33:12** For 250 years, American has experienced blessings that can only be attributed to the hand of God. A main blessing being freedom. Freedom to pursue our hopes and dreams, and to worship God without fear or persecution. May we never forget to thank our God for the wonderful blessings we enjoy in this great nation.
- 2. 2 CHRON. 7:14** People aren't perfect and neither are nations. We must also take time to reflect on the sins and failures of our nation, and repent, and ask God's forgiveness: redefining marriage, removing God's laws, prayer, Bible reading, abortion, and every kind of social injustices, as well as any other way we have fallen short of liberty and justice for all.
- 3. ROM. 13:1-5** While our ultimate allegiance is to the Kingdom of God, we still are responsible to be examples of righteous living, and to let our light shine among men in our nation, the workplace and our communities. Governments are ordained of God for the protection of the righteous and punishment of evil doers.

Conclusion

We live in the greatest country on Earth. Nothing is more important than its spiritual health. As we celebrate 250 years of freedom, may we all pray for a continued spiritual awakening across our land.
