

HEARING AND HEALING

JULY 5, 2026

LUKE 5:15, 6:18-20 NLT

Hearing and healing go together. What we hear and how we hear it can be the difference between getting healed or staying sick. The woman with the issue of blood heard something that produced faith that got her healed.

PR. 4:20-22

Life and health involve attending, listening, thinking, and believing. Jesus said we must take heed to what we hear and how we hear it. Why? Because He knew the dangers of having an immature perception of faith.

MT. 13:14-16

Healing involves seeing, hearing, understanding and converting or changing. The cripple at the pool of Bethesda is an example of one whose perception was wrong.

PS. 107:17-20 NIV

This is a Psalm of thanksgiving to a merciful God, who delivered His people from what they were going through, and healed them of their diseases. He sent them His Word.

PS. 138:1-2 AMPC

God exalts His Word above His name. He wants us to view His Word as He does and speak it in faith.

- **JER. 1:12 AMPC** The Roman Centurion is an example ~ **MT. 8:10-13**

HEB. 3:1 HCBS

Confession means to say the same thing. We say what God says and Jesus watches over our confession to perform it.

REALIZATION FOLLOWS CONFESSION:

- **Rom. 10:8-13** Saved is Sozo: deliver, heal, protect, preserve and make whole.
- **Rom. 10:14-17** Reveal the process: hearing, believing, and acting. The primary action being speaking, **2 COR. 4:13, MK. 7:28-30, MT 15:28-30**

MK 11:23

There is no greater mountain to remove than spiritual death. It is removed by speaking, believing and not doubting. If we can trust this process with our eternity, why is it so hard to trust it with our healing, deliverance, protection, provision and wholeness?

CONCLUSION:

God did His part by sending His Word (Jesus) to heal us. Jesus did His part by taking the stripes for us. Now we must do our part by believing from the heart and saying with our mouth what God's Word says about our healing. Doing so gives God something to watch over and perform in our lives.
